

FURTHER ANALYSIS FOR MTUHA DATA EXTRACTION FROM CARE2X. 1-JUNE-2011

We gave our developer task to make assesment of MTUHA reports which can be extracted from Care2x.

He presented to us list of charts (Jedwali) which can be extracted from Care2x with the existing data input and those which need RCH module development and HR software. ELCT ICT Unit went through MTUHA book2 and book10 page by page and mark all charts using marker pen with different color, we marked reports which will be found with existing data input and those which need adjustment and development of RCH module. ELCT ICT Unit had meeting with MTUHA expert from ALMC so that she can provide more input and comments about reports which are mostly needed.

The following reports (From MTUHA books) are mostly demanded by DMO.
(Please go through MTUHA book 2 and book 10 to see details of the charts(Jedwali).)

Book 2

CHART (JEDWALI)	DESCRIPTION	REMARKS
Jedwali 25 A	Idadi ya Mahudhurio	OPD
Jedwali 26	Magonjwa ya kuambukiza yanayotolewa taarifa	OPD
